

LOCAL TRAFFIC CHANGES

Following the completion of recent roadworks, traffic flow around the theatre has changed. The direction of traffic on Thorp Street has been reversed, and entrance is now via A38 Bristol Street. Access to Ladywell Walk is from Pershore Street only, for access to frontages and Wrottesley Street. Two-way traffic is now operating on Dudley Street.

This could cause some congestion, so it's best to leave a little extra time for your visit to the theatre if travelling by car. Remember, there are lots of easily accessible car parks in the city centre just a short walk from the theatre, which may be better especially if approaching from the north or west.

For patrons being set-down or picked up, you may prefer to use Horsefair/Bristol Street and use our Thorp Street entrance. Alternatively it is only a short walk to the main entrance from Essex Street, Inge Street and Bromsgrove Street.

We also have great connections to public transport routes. Both New Street and Moor Street train stations are very close and many bus routes pass nearby. Check networkwestmidlands.com or call Traveline on 0871 200 2233.

LARGE RED & WHITE CHEQUERED AREA:

No admittance to traffic (delivery access only).

LARGE BLUE P: Arcadian car park.

BLACK ARROWS:

- One way, reduced to single lane via Thorp Street and Hurst Street.
- No access to Ladywell Walk via Hurst Street; access via Pershore Street only, and for access to frontages and Wrottesley Street only.

GREEN ARROWS:

- Southbound access via Bristol Street only.
- For patrons departing the Arcadian Car Park on Bromsgrove Street, southbound is unaffected via Pershore Street or Bristol Street.
- Northbound can access A38 via Upper Dean Street, and Moor Street Queensway past Selfridges.
- Westbound can access Lee Bank Middleway towards Five Ways roundabout via Bristol Street.
- Eastbound is unaffected with regular access via Digbeth to A45.
